About this Training

This instructor-led course will provide the learner with information on business financial literacy and the potential financial effects of disasters. Some of the areas covered in the course include developing pre-disaster plans for financial literacy, understanding disaster assistance programs that are available to businesses, the importance of business continuity planning, and understanding a business's vulnerability to disasters.

Upon completion of this course, the learner will be able to:

- Identify key elements of business financial literacy, including critical components of pre-disaster planning, such as the benefits, hazards, risks, and key stakeholders, especially in vulnerable areas.
- Restate business action steps for increasing disaster financial readiness in a disaster financial management strategy.
- Identify components of a collaborative economic recovery plan that incorporate resources from public, private, and volunteer agencies.
- Identify quantitative and qualitative tools useful in performing economic assessments after a disaster (e.g., assessing damage to property).
- Recognize ways to coordinate intermediate and long-term plans among whole-community partners who can support business financial recovery.

About this Training

This course is designed to provide learners with information on individual and household financial literacy and the potential financial effects of disasters. Some of the areas covered in the course include developing pre-disaster plans for financial literacy, understanding disaster assistance programs that are available to individuals and households, and understanding vulnerability to disasters.

Upon completion of this course, the learner will be able to:

- Identify key elements of individual/household financial literacy, including critical components of pre-disaster planning.
- Recognize ways to coordinate intermediate and long-term plans among whole-community partners who can support individual/household financial recovery.
- Identify components of a personal economic recovery plan that incorporates resources from public, private, and volunteer agencies.
- Restate individual/household action steps for increasing disaster financial readiness in a disaster financial management strategy.
