Dear Port Commission:

On behalf of the Bellingham International Airport Advisory Committee (BIAAC), this letter is to advise you that BIAAC is in support of the recommended reunification of BIAAC and the Technical Airport Advisory Committee (TAAC). This topic was first discussed at the February 13, 2020 meeting of BIAAC. Although there was not a quorum at this meeting, all members attending supported this action. During the week of March 2, all BIAAC members were polled by email and all those who responded supported this action. To my knowledge, no BIAAC members have expressed opposition.

I believe that consolidating these committees is a sensible action, both for reasons of efficiency and for allowing citizen and business and airport user groups affected by airport operations to communicate with each other and better understand their respective needs and concerns.

Sincerely,

Michael A. Corn, Chair, Bellingham International Airport Advisory Committee
